<ul style="list-style-type: none">● JavaScript● HTML5● CSS3● Node.js● Python● Java● Php	<ul style="list-style-type: none">● Firebase● MongoDB● MySQL● SQL	<ul style="list-style-type: none">● React● Next.js● jQuery● AngularJS	<ul style="list-style-type: none">● Git

Professional Experience

Flex Ireland
Document control analyst / IT support

2017 – 2020

It was my responsibility to provide technical support and consultancy to all departments primarily the engineering department. This was typically achieved by responding to and resolving queries via an open source ticket support system. I also performed routine activities such as backups. Reports were generated using SQL daily.

- Ensured that the production line kept running .
- Reduced down time.
- Worked within a small team.

Tech Stack

- UVDesk
- mySQL
- Open reports

Cork Institute of Technology
2020 ISO 50001 Energy Compliance Coordinator

Jun. - Sep. 2017

It was my responsibility to carry out energy audits in CIT main campus and the Crawford College of Art Design. This was typically achieved by creating surveys, equipment lists etc and generating documentation to present the data in an accessible fashion.

Helped to create an awareness of energy awareness using various techniques including a poster and ad campaign. The aim being to reduce energy usage by 2020 to achieve the ISO certificate.

- Created poster and ad campaigns.
- Assisted in successfully gaining ISO certification.

Tech Stack

- excel
- mySQL
- Acrobat

Boston Scientific Quality Engineer

Aug. - Dec. 2015

It was my responsibility to help carry out a culture of quality awareness and communicating with the quality assurance team working in a highly regulated environment. My main role was in technical writing, creating documents using information provided by other departments. This sometimes involved working with handwritten notation and drawings of charts.

I was part of the MES upgrade team. My role was to compare reports generated with the older version of the software with the newer reports. This required me to generate new reports and carefully check for irregularities.

- Created procedures.
- Assisted in MES upgrade project. .
- Worked alongside the QA department.

Tech Stack

- Excel
- IQMS (MES)
- Acrobat

Education and Training

Education:

2020-2021	Code institute - Diploma in Software Development
2012-2013	University College Cork - Ms Electronic-Business (BIS)
2009-2012	University College Cork - BA – History / English

Technical Courses Completed:

2020	Udemy Course	react - complete guide
------	--------------	------------------------

Other

- Running
- Roller Derby - Referee / coach
- Filmmaking
- Learning languages (French) and playing guitar
